FIIG Change List	70

GENERAL INFORMATION

1. Purpose and Scope

This Federal Item Identification Guide (FIIG) is a self-contained document for the collection, coding, transmittal, and retrieval of item characteristics and related supply management data for an item of supply for logistical use. This FIIG is to be used to describe items of supply identified by the index of approved item names appearing in this section.

2. Contents

This FIIG is comprised of the following:

- Index of Approved Item Names Covered by this FIIG
- Applicability Key Index
- Section I - Item Characteristics Data Requirements
- Section III - New text that should be here.
- Appendix A - Reply Tables
- Appendix B - Reference Drawing Groups (as applicable)
- Appendix C - Technical Data Tables (as applicable)

a. Index of Approved Item Names Covered by this FIIG:

The index lists the approved item names with definitions and item name codes as they appear in Cataloging Handbook H6, applicable to this FIIG. In addition, each name entry is assigned an applicability key for use in relating the characteristics requirements in Section I to the specific item name.

b. Applicability Key Index:

The purpose of this index is to provide the user with a ready reference for determining the specific requirements which are applicable to a given approved item name. This index lists all requirements in sequence as they appear in the FIIG. The applicability of a Master Requirement Coded requirement is indicated by the column headed by the specific item name applicability key as follows:

(1) The letter "X" indicates the requirement must be answered for a full descriptive item.

(2) The letters "AR" indicate the requirement is to be answered as required by (1) instructional notes within the FIIG; (2) when the reply is predicated on replies to a related main requirement; or (3) when an asterisk (*) is used in conjunction with the applicability key column in Section I.

(3) A blank in the column indicates the requirement is not applicable to the specific item name.

GENERAL INFORMATION

c. Section I - Item Characteristics Data Requirements:

This section contains the physical and performance characteristics requirements needed to describe and identify an item of supply. These characteristics differentiate one item from all other items of supply and are to be used to meet the needs of all supported functions. This section is arranged in columns. Identification of each column and instructions pertinent thereto are as follows:

(1) Applicability Key:

The first column shows the applicability key(s) for each requirement. It indicates whether the requirement need be satisfied for the item being identified. "ALL" indicates that the requirement must be answered for all items covered by the FIIG. One or more alphabetic character(s) or group of one or more alphabetic characters indicates a response is required when describing items with an approved item name or names represented by the key(s). An asterisk (*) used in conjunction with any applicability key indicates that the characteristic stated in the requirement may not be applicable to all items covered by the FIIG.

(2) Master Requirement Codes (MRC):

A four-position code which is assigned to a FIIG requirement for identification of the requirement, cross-referencing requirements in the various sections and appendices of the FIIG, and for mechanized processing and retrieval of FIIG generated data. Absence of a MRC for a requirement indicates a lead-in to requirements with individual MRCs in Appendix B.

(a) The coding technique for providing MULTIPLE/OPTIONAL responses will not be used for a Section I requirement assigned Mode Code A or L that leads to Appendix B sketches with dimensional requirements.

(b) Identified Secondary Address Coding:

This technique is for extending the Master Requirement Code so that a unique address is provided for each application of the requirement in relation to the item and is authorized only as instructed within the requirement. Responses coded through this technique will always consist of the following: (1) Master Requirement Codes, (2) indicator code (a single numeric character determined by the number of positions contained), (3) identified secondary address code (1 to 3-digit alphabetic codes determined by the number of predicted replies), (4) the mode code, (5) the reply code and/or clear text response, and (6) end with a record separator (*). Steps (1) through (6) are repeated for each application of the requirement.

(c) AND/OR coding:

A technique for extending the Master Requirement Code to provide a distinctive address for multiple responses to the same requirement. Responses coded through this technique will always consist of (1) Master Requirement Code, (2) mode code, (3) the response or reply code (as instructed by the requirement), (4) a single dollar sign (\$) for an OR condition, or a double dollar sign (\$\$) for an AND condition, (5) the mode code, (6) the response or reply code

GENERAL INFORMATION

(followed by conditions (4) through (6) for each of the multiple responses) and (7) end with a record separator (*). NOTE: Apply this technique only when instructed by the requirement sample reply (e.g.).

(3) Mode Code:

A one-position alphabetic code that specifies the manner in which a response will be prepared. Each requirement assigned a MRC is also assigned a mode code. Sample replies follow each FIIG requirement displaying the proper construction of a response for the assigned mode code. The response to a requirement will always be prepared in accordance with the assigned mode code and sample reply except in the following instances:

(a) Use of E Mode Code replies is not authorized. If a reply needed to describe an item is not listed in the applicable table, contact the FIIG Initiator.

(b) Mode Code K may not be used for any requirement unless instructed by the requirement instructions.

(4) Requirement:

This portion includes the characteristics data elements and data use identifiers required to identify and differentiate one item of supply from another, narrative definitions, and explanations as to use and method of expression. Instructions for coding and preparing replies are also provided.

(5) Reply Code:

A code that represents an established authorized reply to a requirement.

d. Section III - Supplementary Technical and Supply Management Data:

This section includes those characteristics requirements necessary to support specific logistics functions other than National Stock Number assignment.

e. Appendix A - Reply Tables:

Tables of authorized replies to requirements and reply codes when the tables are too lengthy for inclusion in Section I/III, when applicable.

f. Appendix B - Reference Drawings:

This appendix contains representative illustrations which portray specific variations of one or more generic characteristics. If reference drawings contain requirements pages to be used in conjunction with illustrations for dimensioning purposes, the requirements pages will contain Master Requirement Codes, mode codes, and a statement of the requirement. A response to requirements on a requirements page is necessary only for those Master Requirement Codes applicable to the illustration selected.

g. Appendix C - Technical Data Tables:

GENERAL INFORMATION

This appendix contains conversion charts and similar data pertinent to the requirements in Section I/III, when applicable.

3. Enter administrative MRC CLQL immediately following the last FIIG requirement reply, as instructed below:

<u>MRC</u>	<u>Mode</u> <u>Code</u>	<u>Requirement</u>	<u>Example</u>
CLQL	G	COLLOQUIAL NAME (common usage name by which an item is known)	CLQLGWOVEN WIRE CLOTH*

4. Special Instructions and Indicator Definitions

a. Measurements:

Unless otherwise indicated within a requirement example, enter all measurements in decimal form, carried to the nearest three decimal places, with a minimum of one digit preceding the decimal. For SI (metric), enter all measurements with a minimum of one digit before and after the decimal. For fraction to decimal conversion, see Appendix C.

b. Indicators:

A cross hatch (#) following an AIN, MRC, Reply Code or Drawing Number indicates for "ALL EXCEPT USA" use only.

5. Indexes

a. Index of Data Requirements

This index is arranged in alphabetic sequence by Master Requirement Code, cross-referenced to the applicable data requirement and page number(s).

b. Index of Approved Item Names

This index is arranged in alphabetic sequence referenced to Applicability Key.

c. Applicability Key Index

This index is arranged in Applicability Key Sequence.

6. Maintenance

Requests for revisions and other changes will be directed to:

INDEX OF APPROVED ITEM NAMES COVERED BY THIS FIIG

INDEX OF APPROVED ITEM NAMES COVERED BY THIS FIIG

<u>Approved Item Name</u>	<u>INC</u>	<u>App Key</u>
BLADE, SAFETY RAZOR	03155	BM
BRUSH, SHAVING	04813	AF
CLIPPER, HAIR	03203	CA
CLIPPER, NAIL	37145	BG
COMB, HAIR	03507	AD

A comb confined to the combing of human hair.

COVER, TOILET SEAT, DISPOSABLE	51240	BQ
--------------------------------	-------	----

An item which is usually made of paper, plastic, or other flexible material, designed to fit most standard toilet seats. It is for use in any public/semi-private lavatory areas where sanitation protection and easy maintenance are necessary.

CREAM, SHAVING	10216	AL
----------------	-------	----

Excludes SOAP, SHAVING

DENTURE CLEANSER	33793	AP
------------------	-------	----

A food and stain remover for dentures. Excludes TOOTH PASTE and TOOTH POWDER.

DEODORANT, OSTOMY	49866	AK
-------------------	-------	----

An item designed for use with ostomy appliance to deodorize area, and eliminate odors before they can permeate the air. Excludes DEODORANT, GENERAL PURPOSE, and DEODORANT, PERSONAL.

DEODORANT, PERSONAL	36021	AK
---------------------	-------	----

An item intended to inhibit or mask perspiration odor. It may also contain an antiperspirant. Excludes DEODORANT, GENERAL PURPOSE.

DEPILATORY CREAM	37146	AK
------------------	-------	----

DOILY, PAPER	12938	BJ
--------------	-------	----

A paper item used on tables, counters, plates, trays, etc., as decoration and/or to protect surfaces from moisture and the abrasive action of objects placed thereon.

FIIG T120
GENERAL INFORMATION
INDEX OF APPROVED ITEM NAMES COVERED BY THIS FIIG

<u>Approved Item Name</u>	<u>INC</u>	<u>App Key</u>
DOILY SET	37461	BJ
Two or more paper items used on divided trays, as decoration and/or to protect surfaces from moisture and the abrasive action of objects placed thereon.		
EJECTOR, WATER JET, ORAL HYGIENE	30395	AM
A pulsating oral hygiene appliance designed to pump a vigorous stream of water, circulating over, under, and around the gums and teeth, removing loose and unseen bits of food.		
FILE, FINGERNAIL	21130	BG
HAIR BRUSH	15232	AE
HAIRDRESSING	37467	AK
A cream, gel, grease or liquid preparation applied to the scalp for added sheen and controlling unruly hair.		
HAND CLEANER	15139	BK
An item designed to remove stains, grease, grime and the like by solvent action; it may contain grit. Excludes SOAP (as modified) and DETERGENT (as modified). See also SOAP,GRIT.		
LIPSTICK, ANTICHAP	03294	AN
A stable homogenous preparation for the prevention of chapped or sunburned lips.		
LOTION, SHAVING	38157	BK
An astringent rinse for pre or after shaving application. Excludes EMOLLIENT LOTION.		
MIRROR, HAND	15252	BF
An item with or without a handle, which may be set into a frame, and is used for personal grooming. Excludes MIRROR, GLASS and MIRROR, MOUTH EXAMINING.		
MOUTHWASH	29188	AM
An item in liquid or powder form, with a pleasant taste and odor, used as a toiletry, to rinse the mouth.		
NAPKIN, TABLE, PAPER	03737	BH
PAD, SKIN CLEANSING	33379	BP
PAINT, CAMOUFLAGE, COSMETIC #	33082	AG
A preparation to be applied to the external parts of the human body to make it blend with surroundings.		
PAINT, FACE, CAMOUFLAGE	03293	AG
A preparation to be applied to the face to make it blend with surroundings.		

FIIG T120
GENERAL INFORMATION
INDEX OF APPROVED ITEM NAMES COVERED BY THIS FIIG

<u>Approved Item Name</u>	<u>INC</u>	<u>App Key</u>
PROTECTIVE GEL, SKIN CARE	40216	AK

A nonspecific chemical preparation used to protect the skin against contact irritants. Excludes SKIN PROTECTIVE COMPOUND, CHEMICAL BARRIER; PROTECTIVE CREAM, SKIN CARE; EMOLLIENT CREAM, BREAST CARE; EMOLLIENT CREAM, SKIN CARE.

RAZOR, ELECTRIC	20475	DA
RAZOR, SAFETY	03162	AC
RAZOR, STRAIGHTEDGE	03164	BA

Scissors

1. A manually operated tool for cutting fabric, paper, cuticles, and other light material. Cutting is effected by means of two beveled edge blades of various shapes pivoted together so that the edges slide one by the other. The handle must have two symmetrical single finger grips without finger rests. For items with finger rests, see Shears.

SCISSORS (1), MANICURE	19340	BD
------------------------	-------	----

Scissors with two sharp pointed blades. The blades are curved in the same direction as the axis of the pivot screw.

Shears

1. (Hand-Held Portable) A tool designed for cutting bars, plates, and sheets of metal, fabric, paper, wire, and like materials. Cutting is effected by means of opposed edged blades of various shapes, pivoted together so that the edges slide one by the other; or by the moving of one blade in alignment with a stationary blade. Excludes items with two symmetrical single finger grips, without finger rests. See also SCISSORS (as modified) and CUTTER (as modified).

SHEARS (1), BARBER'S	03172	BE
----------------------	-------	----

Shears with either two sharp pointed blades or two blunt pointed blades. The item has two ring shaped grips with finger rest, each of which is designed for a single finger.

SHOEHORN	40586	AQ
----------	-------	----

An item designed to aid in donning shoes. May also have an attachment to aid in pulling on stockings.

SOAP BOX	13755	AA
----------	-------	----

A container designed to hold an average size bar of toilet soap. It consists of a 3 dimensional bottom part and a 3 dimensional top part. The bottom may fit into the top as a nested component or the top may consist of a hinged cover. The material may be of any suitable composition, and there may be markings and/or design(s). There are no appurtenances included for mounting or attaching. Excludes DISPENSER, SOAP and HOLDER, SOAP.

STROP, RAZOR	03163	AH
--------------	-------	----

FIIG T120
GENERAL INFORMATION
INDEX OF APPROVED ITEM NAMES COVERED BY THIS FIIG

<u>Approved Item Name</u>	<u>INC</u>	<u>App Key</u>
SUNBURN PREVENTIVE PREPARATION	03295	AK
A preparation applied to the skin to prevent sunburn. Excludes SUNSCREEN PREPARATION.		
TALCUM POWDER	04424	AJ
TISSUE, FACIAL	09793	BN
TOOTH POWDER	09860	AB
TOOTHBRUSH	04811	BL
TOOTHPASTE	09859	AB
TOWELETTE,NONOXYNOL-A IMPREGNATED	52990	AE
TOWELETTE, SKIN CLEANSING	37441	BQ
A small, nonabsorbent, usually premoistened, piece of material used for personal cleansing (as of hands or face).		
TOWELETTE, SODIUM HYPOCHLORITE SOLUTION IMPREGNATED	41947	BQ
An item used for wiping environmental surfaces and patient care equipment.		
TWEEZERS, HAIR	03156	BB
A small pincer-like implement for grasping or extracting.

-----	-----	-----------	--------------

ALL

NAME	D	ITEM NAME
------	---	-----------

Definition: A NOUN, WITH OR WITHOUT MODIFIERS, BY WHICH AN ITEM OF SUPPLY IS KNOWN.

Reply Instructions: Enter the applicable Item Name Code appearing in the Index of Approved Item Names. (e.g., NAMED13755*)

NOTE: A REPLY TO THIS MRC IS REQUIRED FOR SCHEDULE B CODE ASSIGNMENT.

AA, AC, AD, AH, AQ

MATL	D	MATERIAL
------	---	----------

Definition: THE ELEMENT, COMPOUND, OR MIXTURE OF WHICH AN ITEM IS FABRICATED, EXCLUDING ANY SURFACE TREATMENT.

Reply Instructions: Enter the applicable Reply Code from [Appendix A](#), Table 1. (e.g., MATLDALC000*; MATLDPC0000\$DRC0000*)

AA, AD, AG

HUES	D	COLOR
------	---	-------

Definition: A CHARACTERISTIC OF LIGHT THAT CAN BE SPECIFIED IN TERMS OF LUMINANCE, DOMINANT WAVELENGTH, AND PURITY.

Reply Instructions: Enter the applicable Reply Code from the table below. (e.g., HUESDBL0000*; HUESDBL0000\$\$DBR0000*; HUESDBR0000\$DBL0000*)
